

WINNEWALD DAY CAMP DESIGNATION OF ADMINISTRATION OF EPINEPHRINE

The Camp or Health Director may designate another employee of the camp to administer a pre-filled, single dose auto-injector mechanism containing epinephrine when the camp health person is not physically present at the scene, including camp-sponsored day trips, before or after camp care or activities.

The employees will be trained either by an outside, accredited first aid trainer or camp nurse.

CAMPER'S NAME: _____ **DATE OF BIRTH:** _____

Camp employees designated to administer epinephrine in the event that the camp health person is not physically present at the scene will include but not limited to the Camp Director, Division Leaders, Trip Councilors, Head Councilors, Before Care and After Care Councilors. Names will be provided when seasonal staff is established.

I give consent for the group of staff members listed above to administer epinephrine and supportive rescue inhalers **ONLY (not antihistamines)** when the camp health person is not present on the scene. I understand that the Camp and its employees or agents shall incur no liability as a result of an injury arising from the administration of a pre-filled, single dose, auto-injector mechanism containing epinephrine and that I indemnify and hold harmless the Camp and its employees or agents against any claims arising from the administration of a pre-filled, single dose, auto-injector mechanism containing epinephrine.
